

Gulf Coast Seashell Scavenger Hunt

Don't harvest shells with living creatures in them, take a picture instead!

Tips:

1. Bring a shell bag made of netting.
2. Have a sturdy net for scooping shells.
3. Make sure to use lots of sunscreen and don't miss the back of your neck!
4. Found something not listed? Email sdavis@wfplibrary.org to set up a time for help with identification!
